About This Guide

This guide provides a brief introduction to the Outdoor Security Wi-Fi Camera and regulatory information.

Please note that features available in Tapo may vary by model and software version. Tapo availability may also vary by region. All images, steps, and descriptions in this guide are only examples and may not reflect your actual Tapo Camera experience.

Conventions

In this guide, the following convention is used:

Convention	Description
Blue	Key information appears in teal, including management page text such as menus, items, buttons and so on.
<u>Underline</u>	Hyperlinks are in teal and underlined. You can click to redirect to a website.
📌Note:	Ignoring this type of note might result in a malfunction or damage to the device.

More Info

- Our Technical Support and troubleshooting information can be found at <https://www.tapo.com/support/>.
- The camera setup video and waterproof cable attachments video can be found at follow the setup video at <https://www.tp-link.com/support/setup-video/>.

Introduction

Tapo C325WB is the first outdoor security camera among the Tapo cameras series to adopt ColorPro night vision. It is ideal for various outdoor scenarios, such as patios, gardens, garages, and farms. With a resolution of 2688×1520 (2K QHD), it can reveal vivid colors even without spotlights during pitch-black nights. It also provides professional protection via Smart AI detection, alerts, remote control, and more.

- **ColorPro Night Vision** – As a Pro series product, Tapo C325WB offers more significant night vision performance than traditional color night vision cameras, capturing vivid colors under ultra low-light conditions even without spotlights. Enjoy professional monitoring with clearer views even during pitch-black nights.
- **2K QHD Crystal Clear View** – With a resolution of 2688×1520, Tapo C325WB reveals highly-detailed images.
- **Person/Animal/Vehicle Detection** – Smart AI identifies vehicles, people, and even animals, notifying you as needed.
- **Customizable Motion Detection** – Set up activity zones or boundaries and receive instant notifications when motion is detected in your customized zones.
- **IP66 Weatherproof** – Helps Tapo C325WB perform well even in harsh environments with rain and dust.
- **Wired/Wireless Networking** – Connect the camera to your network through Ethernet or Wi-Fi for more flexible installation.
- **Wide Field of View** – A wide FOV offers a larger detection range covering more space, enabling you to focus on more vital areas.
- **Flexible Storage Options** – Save recorded videos to an installed microSD card (up to 512 GB) or use Tapo Care cloud storage service.
- **Two-Way Audio** – Enables communication through a built-in microphone and speaker.

System LED Description

Solid red	Starting up
Blinking red and green (for Wi-Fi setup)	Ready for setup
Blinking red slowly (for Wi-Fi setup)	Connecting to Wi-Fi
Solid amber	Connected to Wi-Fi or wired network
Solid green	Connected to TP-Link Cloud server
Blinking red quickly	Camera resetting
Blinking green quickly	Camera updating

Set Up Your Camera

Follow the steps below to get started with your new camera, or you can follow the setup video at <https://www.tp-link.com/support/setup-video/>.

Step 1. Download Tapo App

Get the Tapo app from the App Store or Google Play, or by scanning the QR code below.

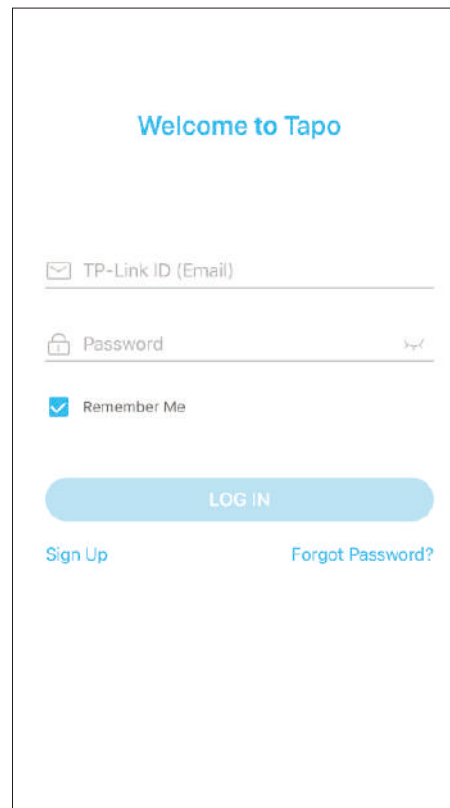

OR

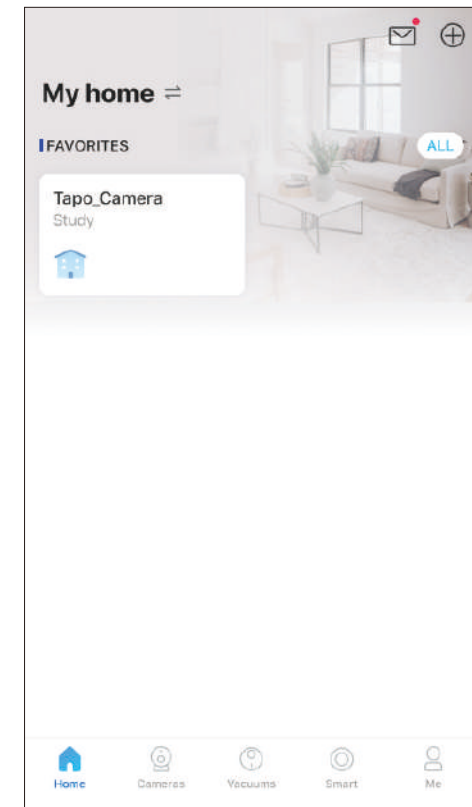

Step 2. Log In

Open the app, and log in with your TP-Link ID. If you don't have an account, create one first.

Step 3. Add Your Camera

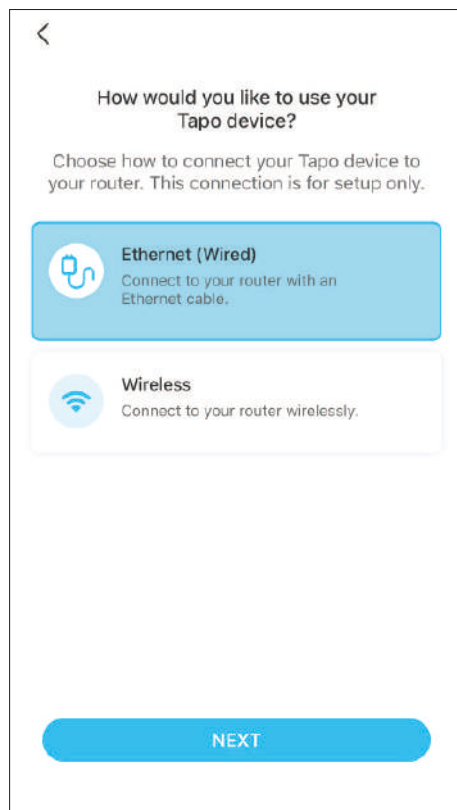

Tap the ⊕ button in the app, select **Cameras** and then your model.

Step 4. Configure Camera

Follow app instructions to set up your camera via wired or wireless connection (for setup only), and add it to your home network. After setup, you can use your camera via wired connection or wirelessly.

■ **Note:** For wireless setup, if your camera is connected to your router via an Ethernet cable, please unplug the cable first.

Set Up Using Amazon Frustration-Free Setup

What is Amazon Frustration-Free Setup?

Amazon Frustration-Free Setup can help connect and set up Tapo smart devices in fewer steps, without having to remember and re-enter your Wi-Fi password on each device.

To use this feature, confirm the following:

- The new Tapo device supports Amazon FFS.
- You have an Amazon FFS enabled Alexa device or router.
- You have saved your Wi-Fi information to Amazon by using Alexa echo.
- Your Tapo device and router are on the same network as your Alexa echo.

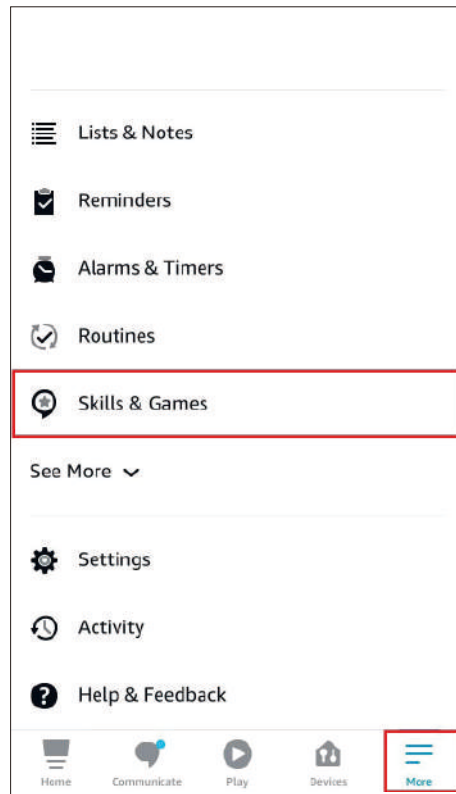

LED Indications during Amazon Frustration-Free Setup

LED	Status
Blinking red and green	Ready for setup
Blinking amber	FFS setup in progress
Solid green	Working properly

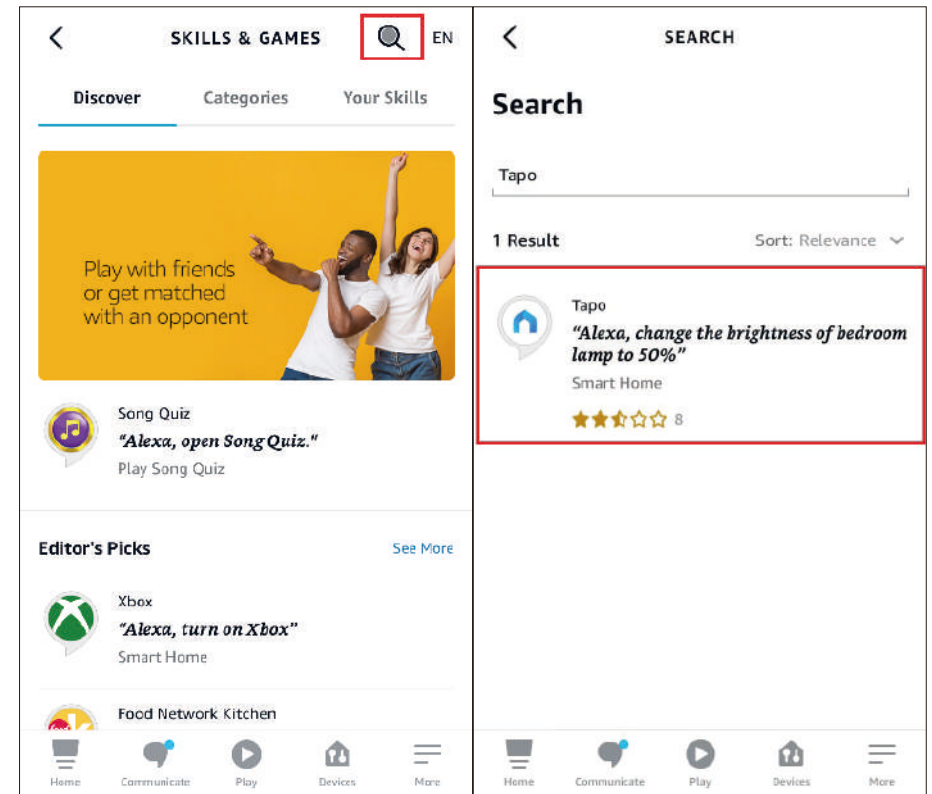

If the LED does not turn solid green after a long time, you can try to add the Tapo device manually. (Press the Reset button on your Tapo device once. Then open the Tapo app, tap the + button on the page, select your device model, and follow the app instructions.)

How to use Amazon Frustration-Free Setup with Tapo devices

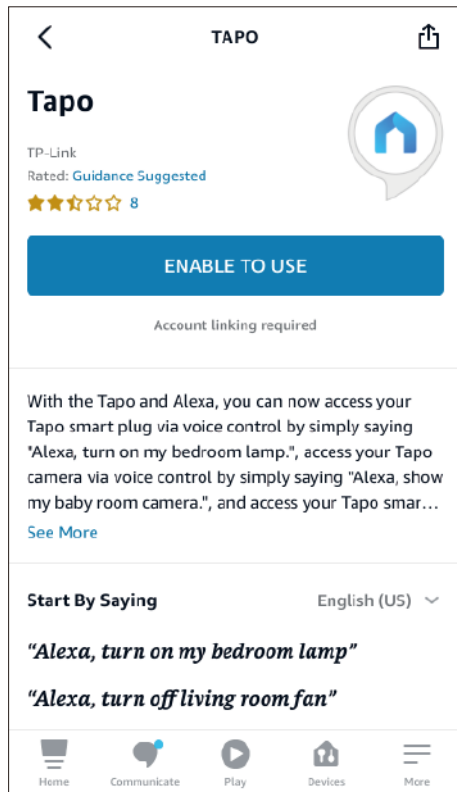

1. Open the Amazon Alexa app. Then tap **More** and select **Skills & Games**.

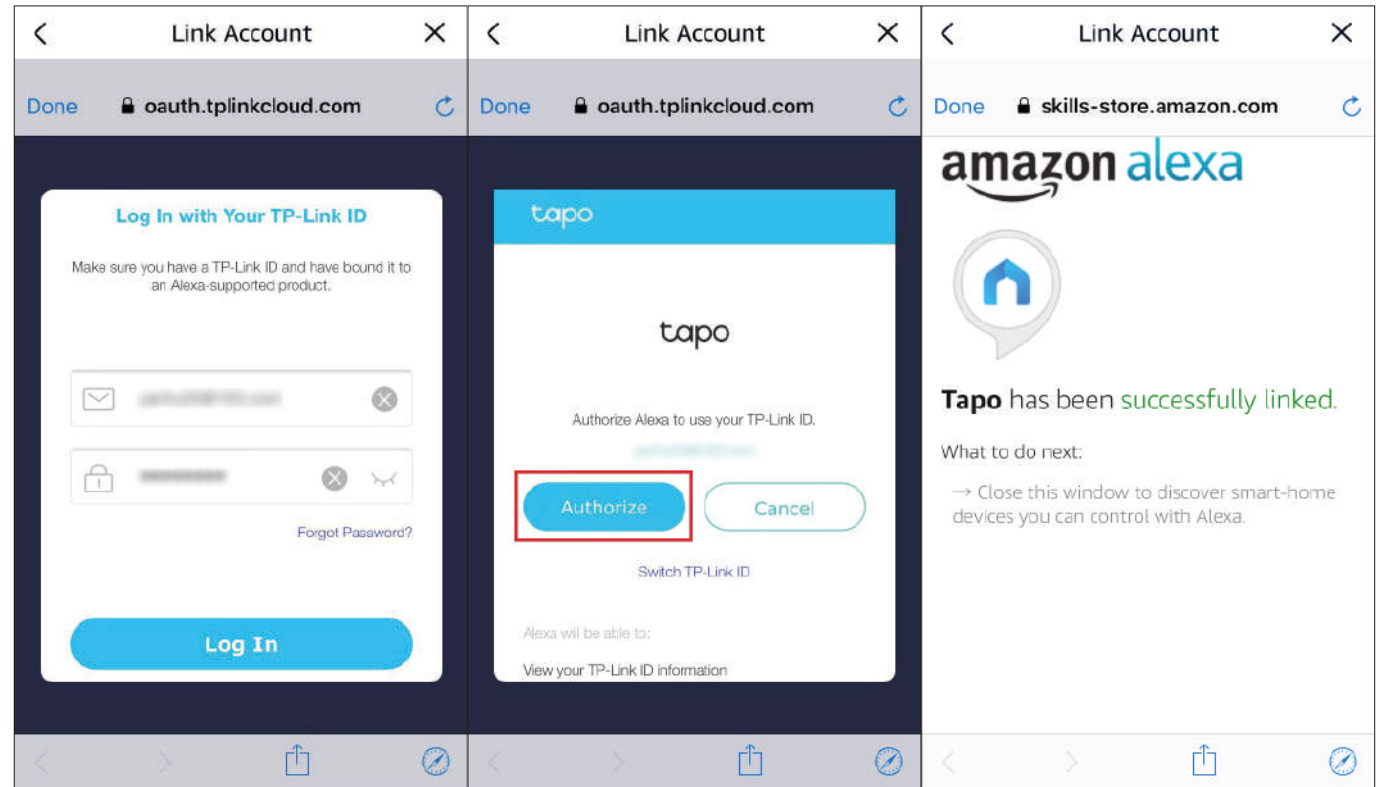

2. Enter **Tapo** in the search bar and choose **Tapo**.

3. Tap the **ENABLE TO USE** button.

4. Log in with your TP-Link ID that has bound to your Tapo device, and tap **Authorize**. After authorized successfully, the message **Tapo has been successfully linked** will come up.

5. Plug in your Tapo device and the setup will complete automatically in two minutes.

For setting up more Tapo devices, just plug in and enjoy!

Done!

If this device displays on the Home page in the Tapo app, it indicates this device has been successfully associated with your Amazon account and joined your Wi-Fi network automatically.

If this device does not display on the Home page in the Tapo app, try setting it up manually. (Tap the + button on the page, select your device model, and then follow the app instructions.)

Install a microSD Card

Follow the steps below to install the microSD card for local recording, or follow the installation video at <https://www.tp-link.com/support/setup-video/>. You can go to Camera Settings > microSD Card in the Tapo app to check the card status or format your card.

1. Loosen the screws on the back panel and remove the cover.

2. Identify the direction of the microSD card and carefully insert the card into the slot. Push in the card until you hear a clicking sound.

*Images may differ from actual products.

Mount Your Camera

When you finish adding your camera in the Tapo app, you can place your camera on a flat surface, or mount it on a wall or ceiling with the provided mounting template and screws.

Follow the steps below to mount your new camera, or follow the setup video at <https://www.tp-link.com/support/setup-video/>.

Step 1. Drill Holes

Stick the mounting template to the desired mounting place. Drill 3 screw holes according to the template.

Step 2. Mount Camera

Insert three anchors into the holes and use the screws to affix the camera over the anchors.

Step 3. Connect to Power

Connect the camera to a power outlet using the provided power adapter. Install the waterproof seal for the power connectors.

Install Waterproof Items

When the camera is installed outdoors, please install waterproof items to waterproof your camera. Make sure each part is securely attached and the water-proofing rings are flush to keep out water.

Follow the steps below to install waterproof items, or follow the installation video at <https://www.tp-link.com/support/setup-video/>.

- **The Ethernet port connects to a network device.**

Install the waterproof cable attachments for the network interface when the camera is installed outdoors.

1. Route the network cable through the following components in order: fix nut, waterproof ring, and then the waterproof jacket.
2. Insert the waterproof ring into the waterproof jacket.
3. Fix the O-ring to the network interface of the camera and connect the network cables.
4. Attach the network interface with the waterproof jacket, then twist to lock. Rotate the fix nut to secure it to the waterproof jacket.

Done! The network interface is now waterproof.

- **The Ethernet port does not connect to a network device.**

1. Insert the waterproof plug into the waterproof ring, then insert them into the waterproof jacket.
2. Attach the network interface with the waterproof jacket, then twist to lock. Rotate the fix nut to secure it to the waterproof jacket.

Main Camera Controls

After you successfully set up the camera, you will see your camera listed on the home page. You can view and manage your camera from anywhere at any time with the Tapo app.

Home Page

This page lists all your cameras you've added and you can view them directly and manage them easily. Tap the camera to enter the [Live View](#) page.

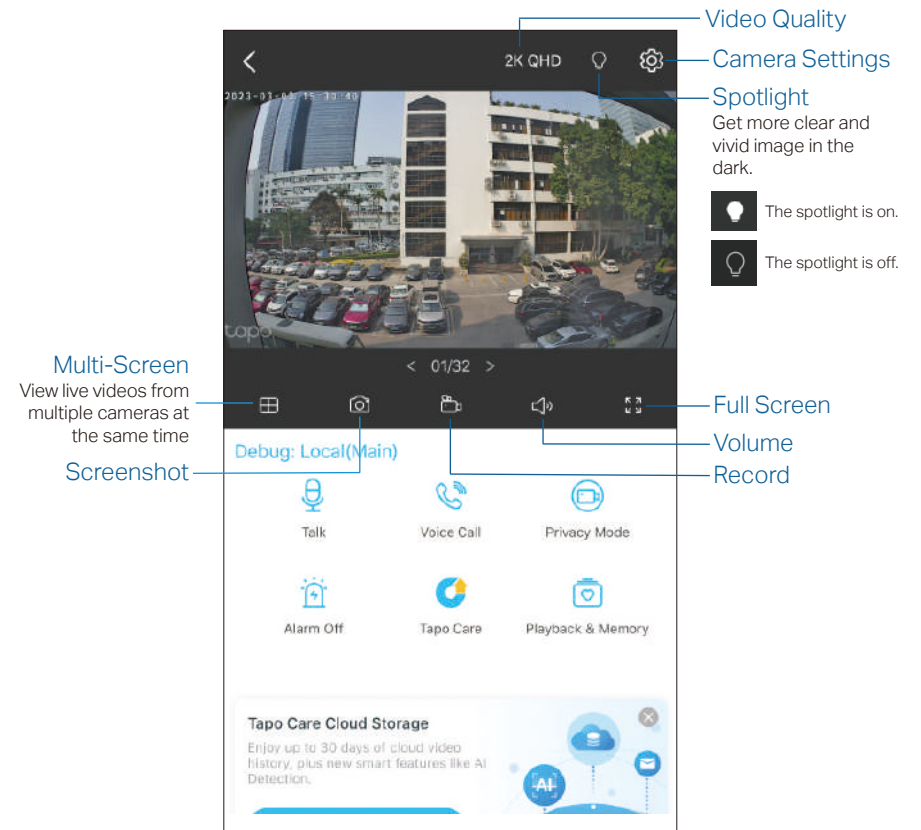

Live View

Talk or Voice Call: Communicate with loved ones

Privacy Mode: Enable to temporarily shut down the surveillance for privacy

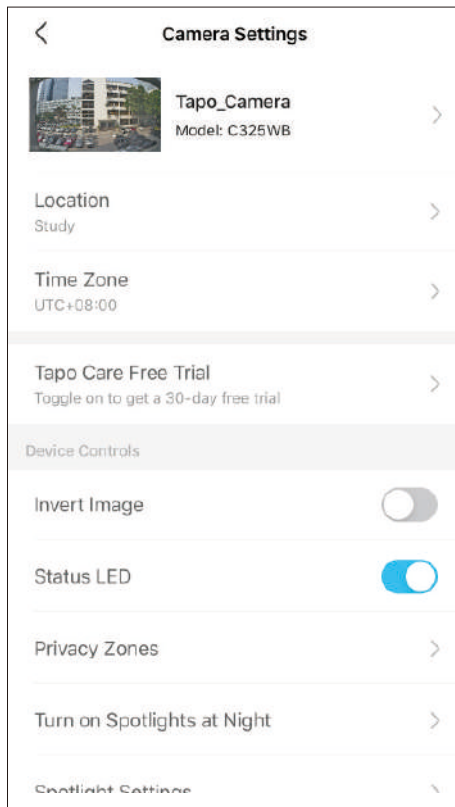

Alarm On/Off: Turn on to get noticed when events are detected

Playback & Memory: Check all recordings and saved moments

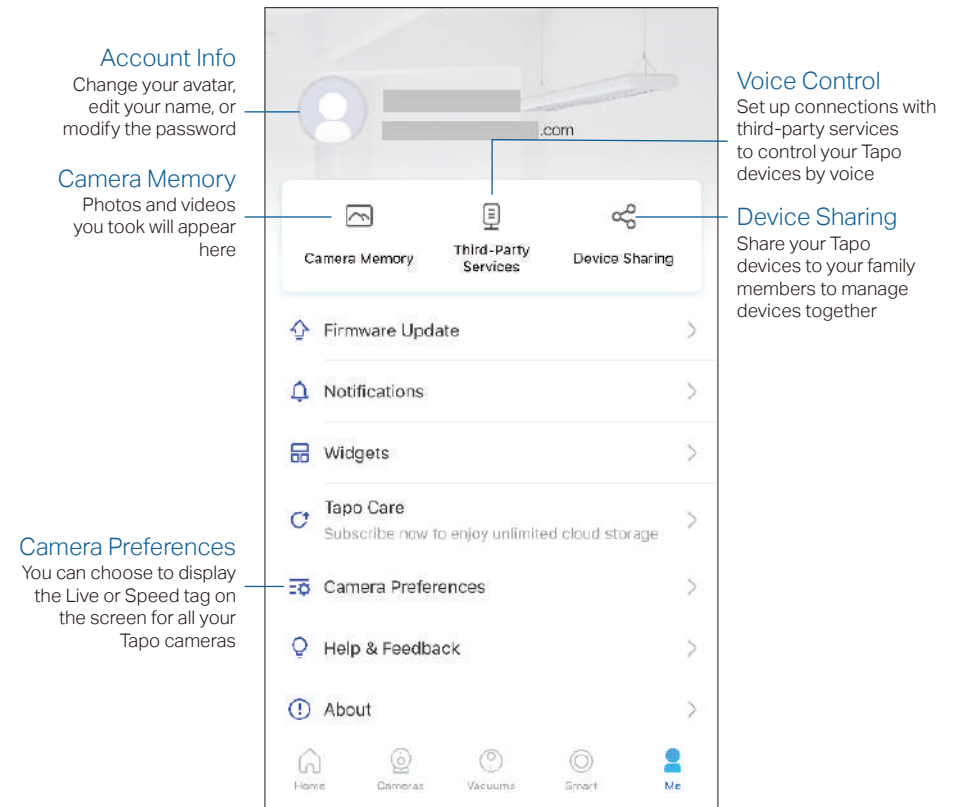

Camera Settings

On [Live View](#) page, tap  to enter the [Camera Settings](#) page. You can change your camera name, set spotlights settings, customize detection settings and recording schedules, turn on/off notifications, set activity zones, remove camera, etc.

Me

On this page, you can edit your account, quickly check the memorable moments you saved, or find the FAQs of using smart camera and basic info related to the Tapo app.

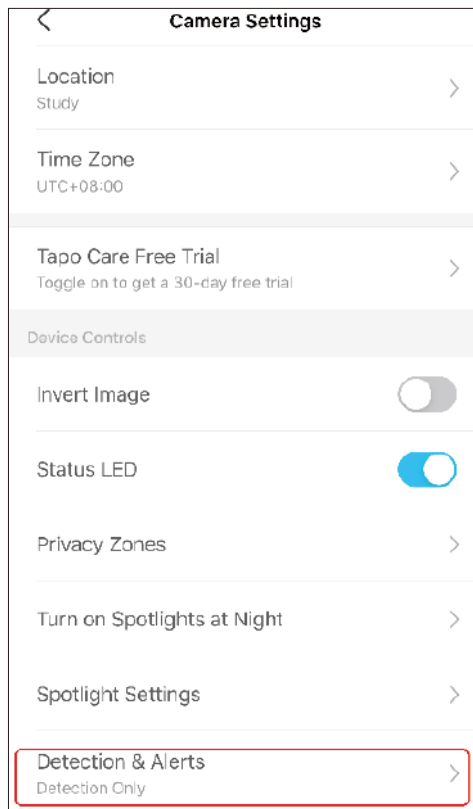

Camera Detection & Alerts

Receive notifications and check feeds when the camera detects a motion, or when someone crosses a boundary, enters an area you've set, or obstructs the camera. Insert a microSD card or subscribe to Tapo Care service to record the clips when activity detected. Otherwise, you can only receive the notifications.

■Note: Initialize the SD card on the Tapo app before using it.

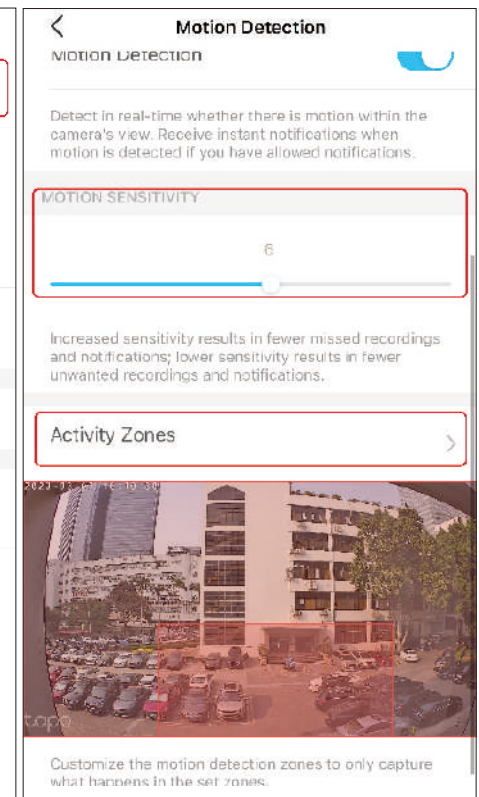

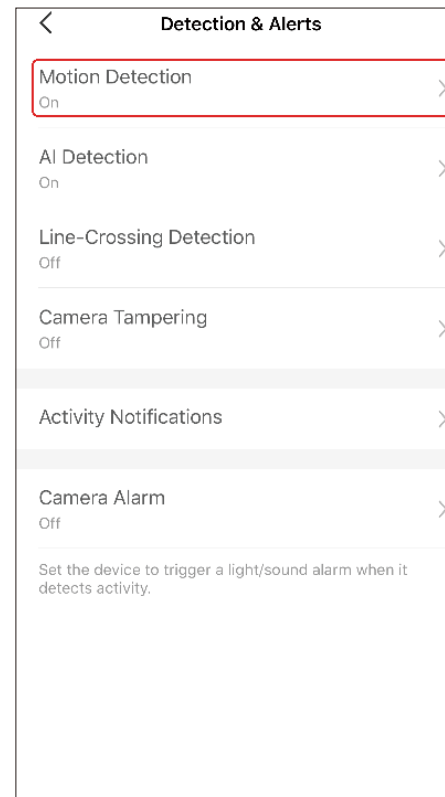

Step 1. Turn On Detection

Go to [Camera Settings](#) page and tap [Detection & Alerts](#) to turn on the detection and customize its alert settings.

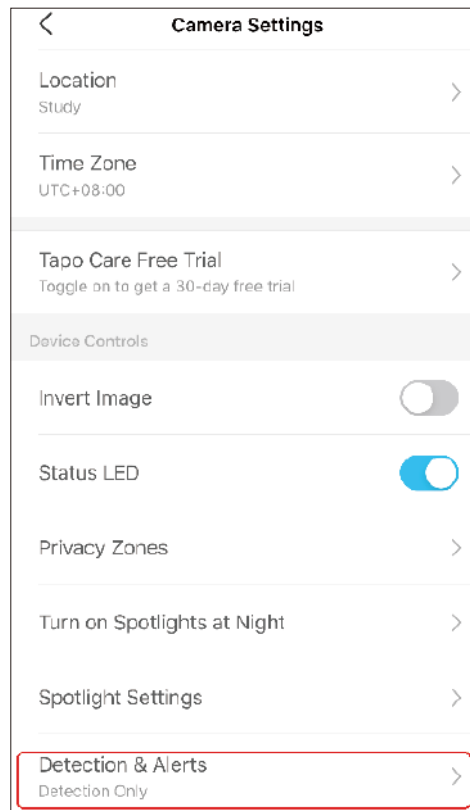

Motion Detection

When your camera detects motion, it will send you notifications or even sound an alarm. You can personalize your own experience by setting motion zones to only capture what happens in the area that you set and adjusting motion sensitivity.

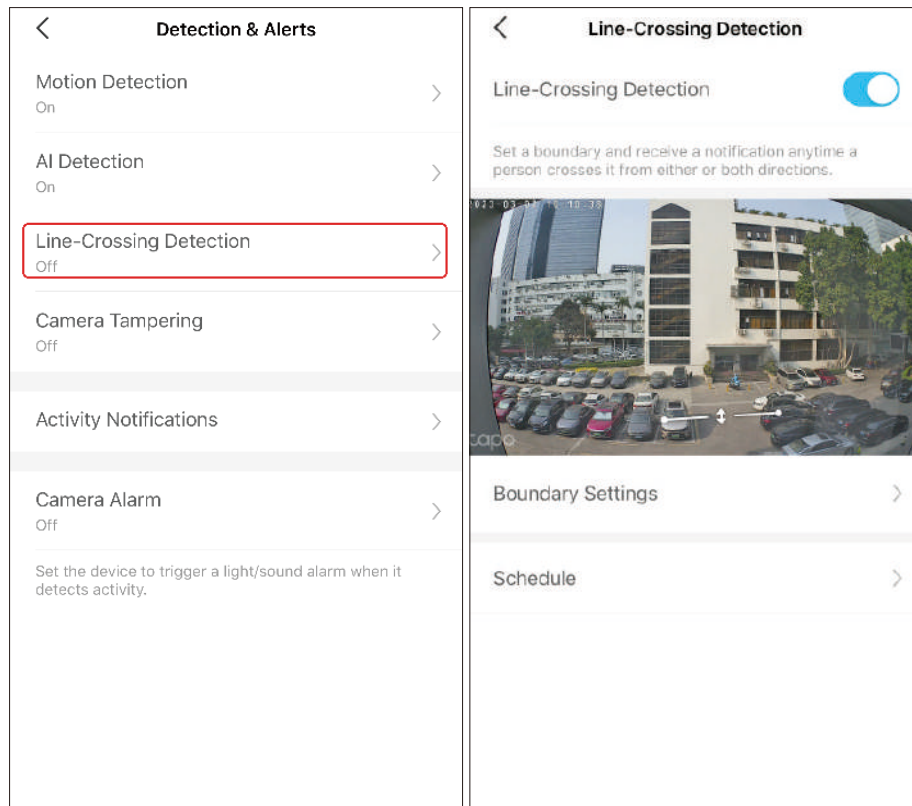

AI Detection

Customize your AI detection setting to only capture people, pets, or vehicle that come into your camera's view with a smart AI algorithms and adjust detection sensitivity.

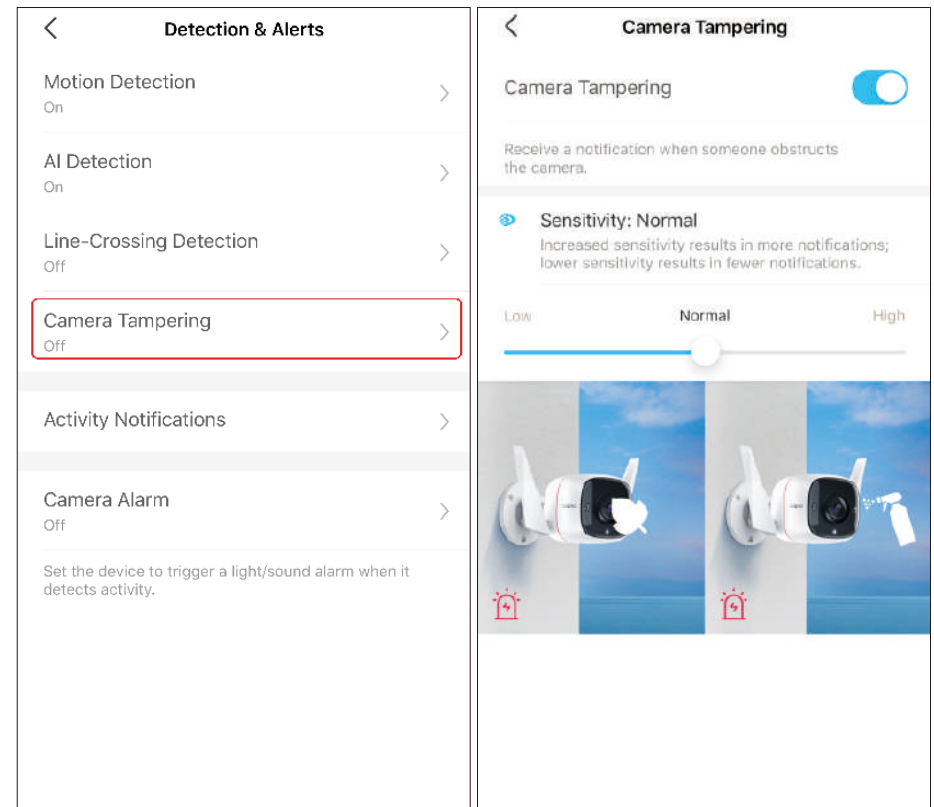

Line-Crossing Detection

Add one or more lines that should not be crossed, then if the set line is crossed, the camera will send you notifications or even sound an alarm. You can also set the crossing direction and detection schedule. It is ideal for fence detection, property monitoring, and parking areas.

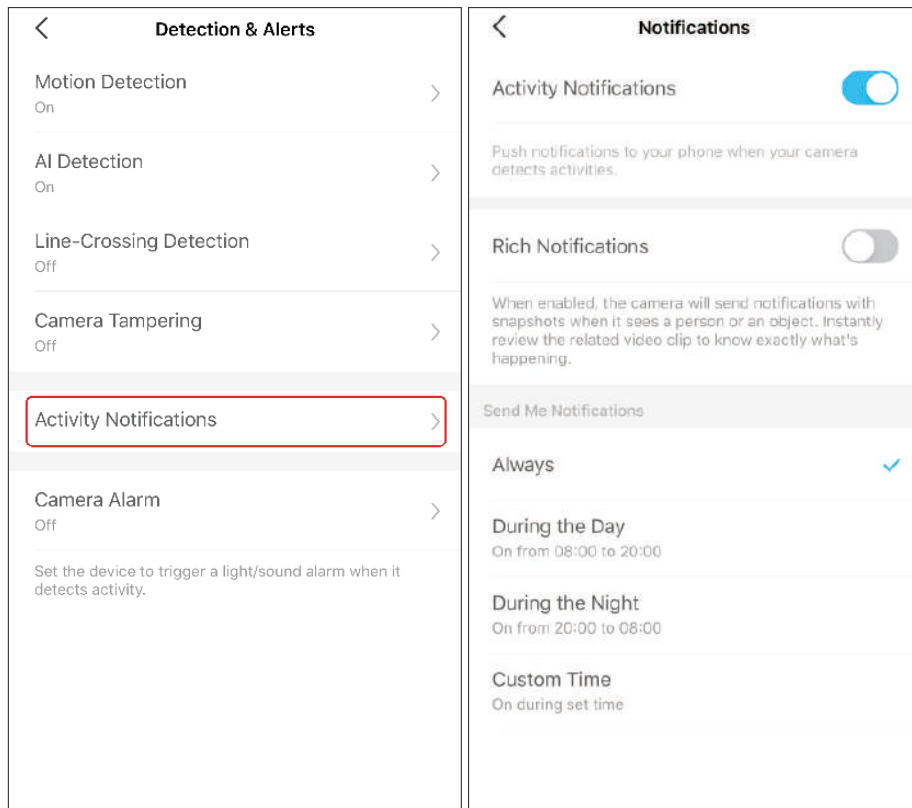

Camera Tampering Detection

When the camera view is blocked, it will send you notifications or even sound an alarm. You can adjust the detection sensitivity. Increased sensitivity results in more recordings and notifications.

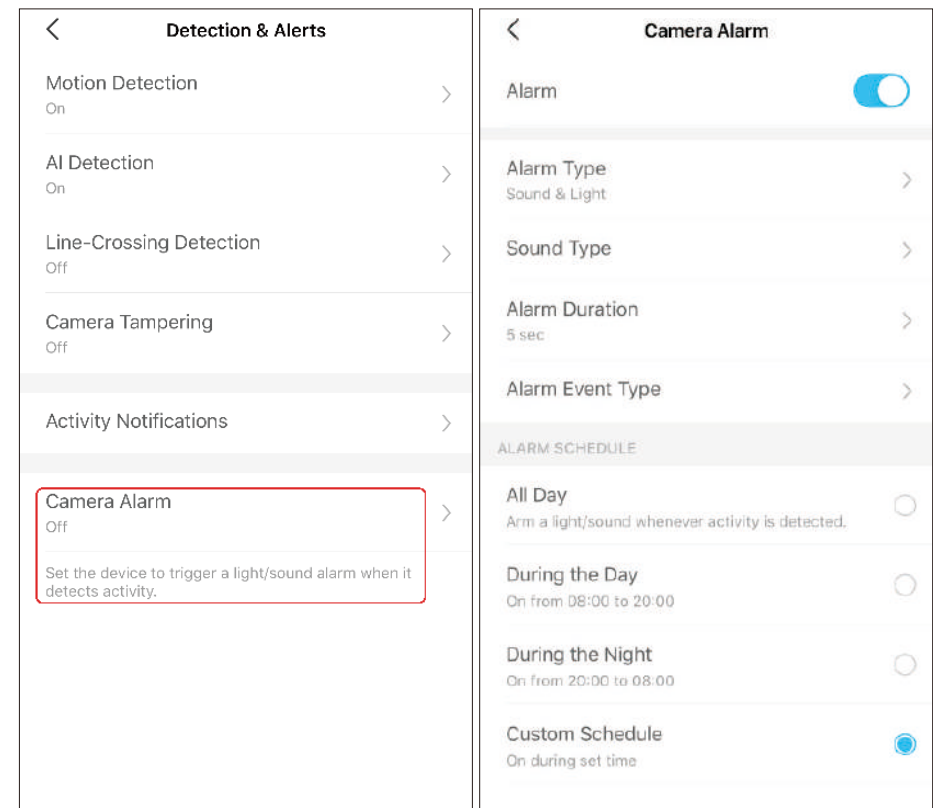

Step 2. Turn On Activity Notifications

Turn on [Activity Notifications](#) to get instant alerts when your camera detects activities. You can customize the time when the camera sends you notifications.

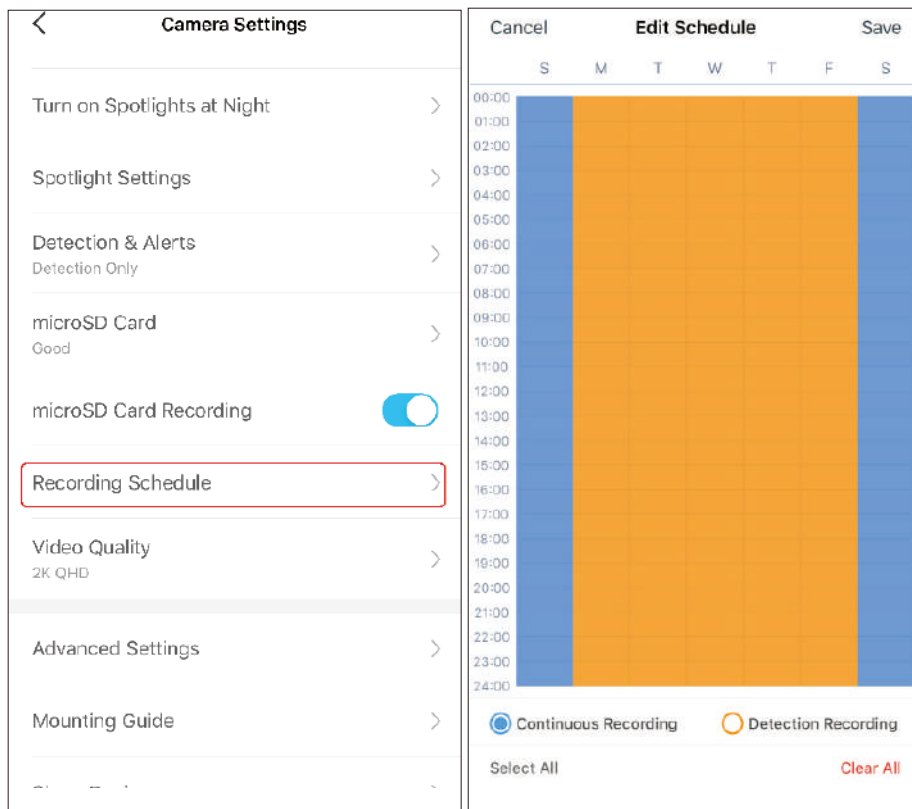

Step 3: Customize Alarm Settings

Customize [Camera Alarm](#) settings to trigger a light/sound alarm to frighten away unwanted visitors when your camera detects activities. You can also set the [Alarm Schedule](#) as needed.

Step 4: Set Recording Schedule

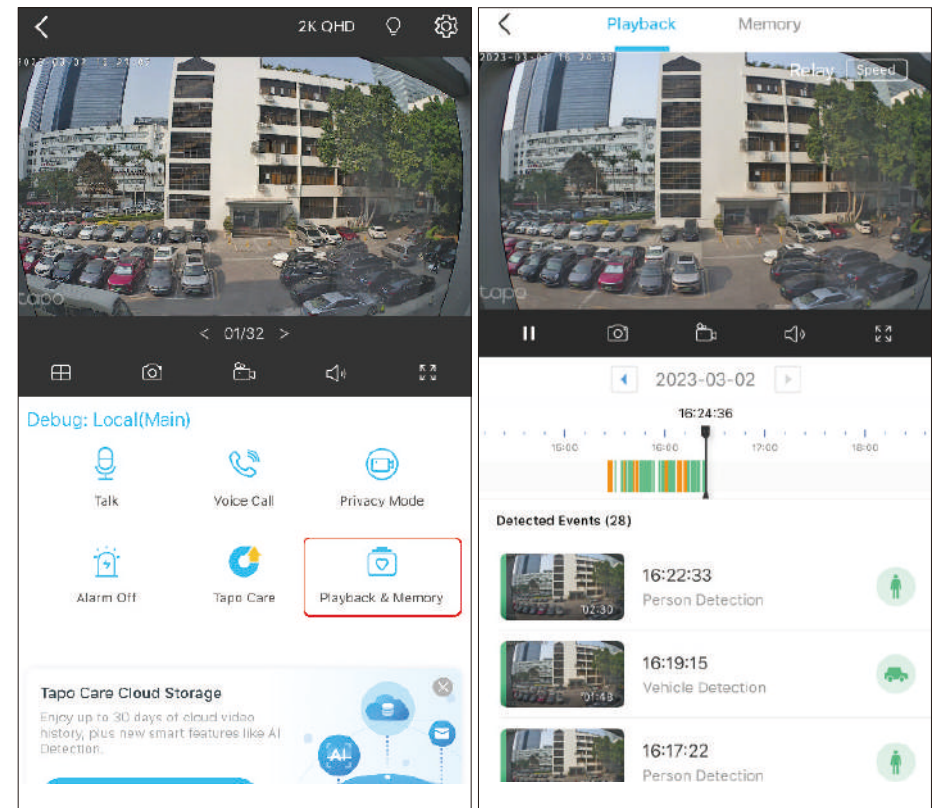

After editing the detection settings for the camera, you can set the [Recording Schedule](#) for Detection Recording.

Step 5: Check Recordings

On the [Live View](#) page, tap  to find all recordings. Tap the colored sections or the video clips below to check the activity detected.

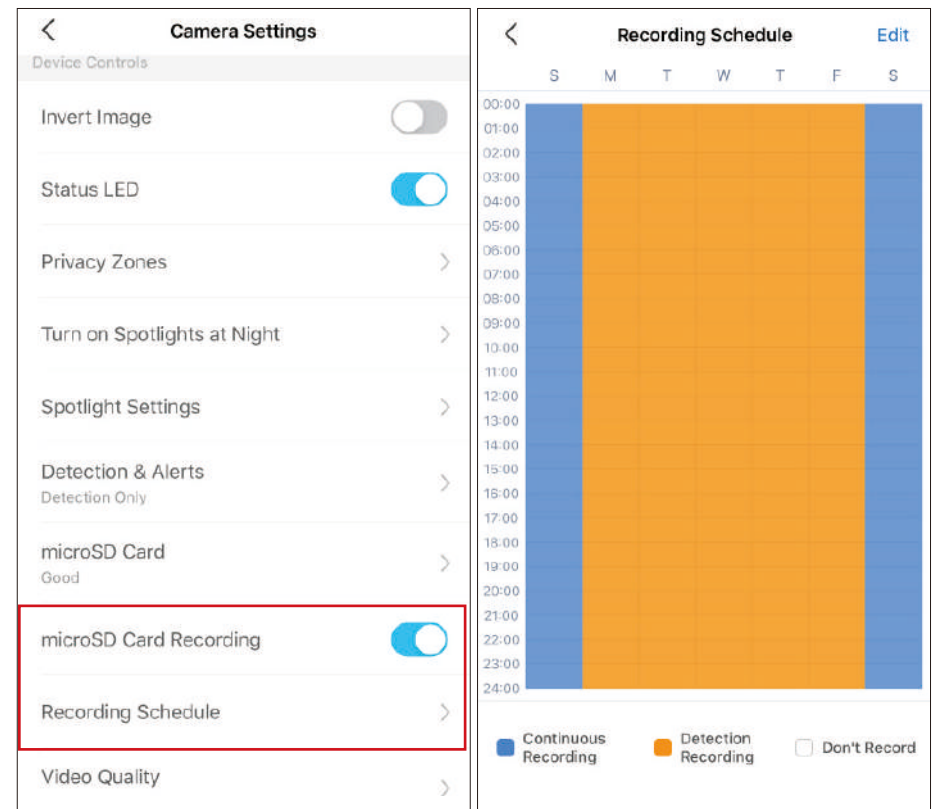

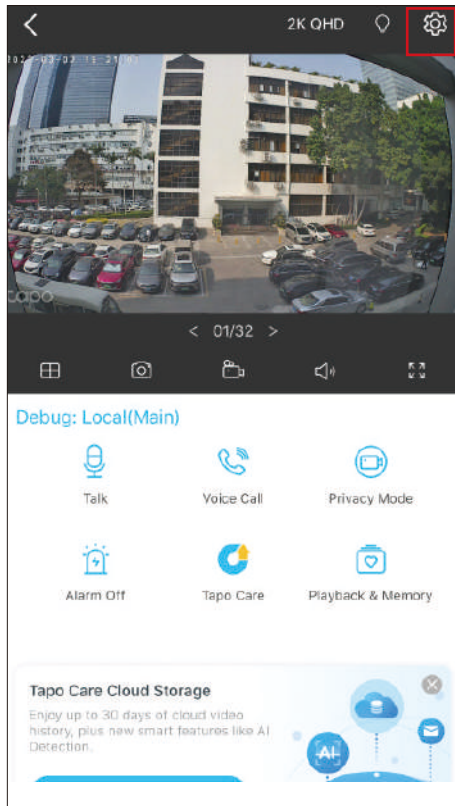

■ **Note:** The microSD card is needed for recordings. Initialize the SD card on the app before using it.

24-hour Recordings

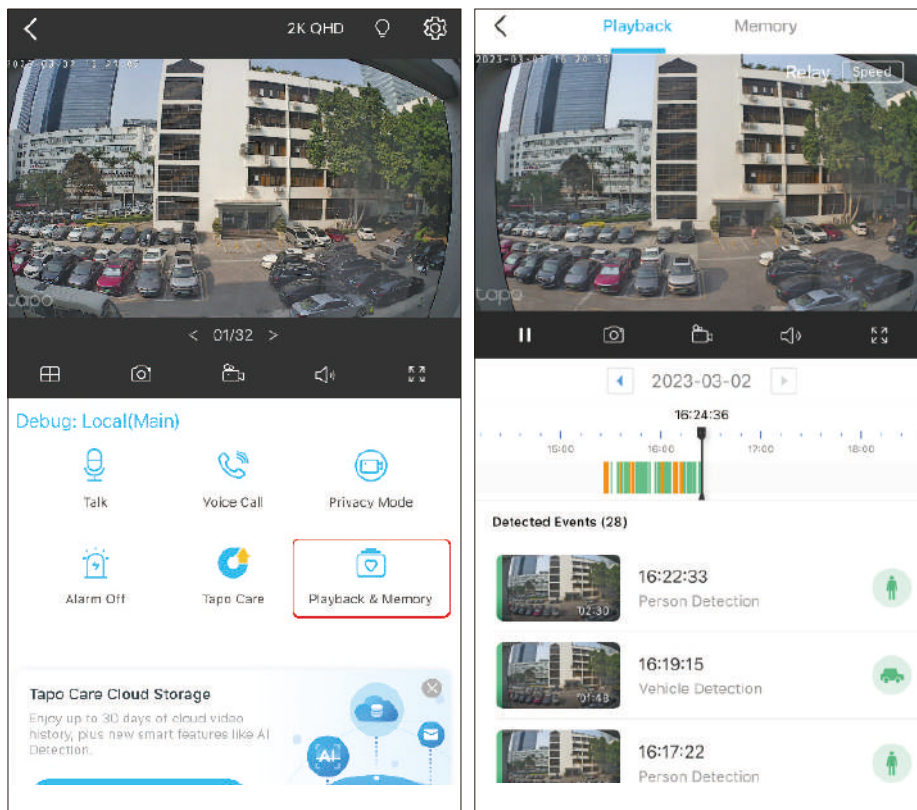

The microSD card is needed for 24-hour recording and it's suggested to initialize the SD card on the app before using it.

1. On the [Live View](#) page, tap  to enter the [Camera Settings](#) page.
2. Toggle on to enable the [microSD Recording](#) function and set the [Recording Schedule](#) for [Continuous Recording](#) (24-hour Recording) as needed.

3. On the [Live View](#) page, tap  to find all recordings. Tap the colored sections or the video clips below to check the activity detected.

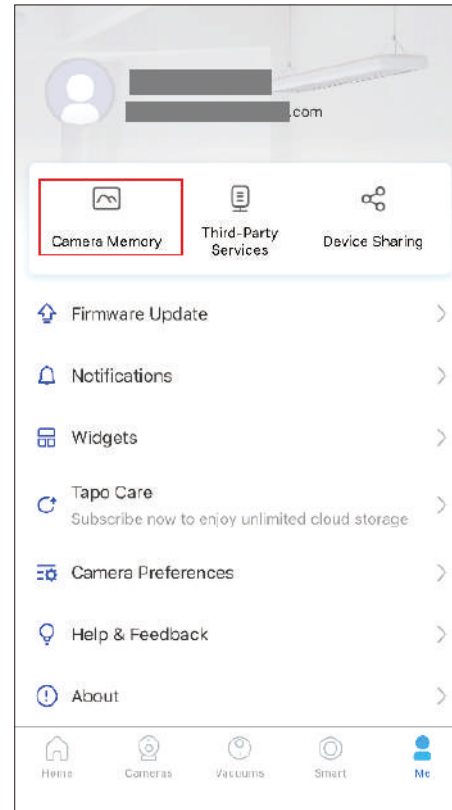

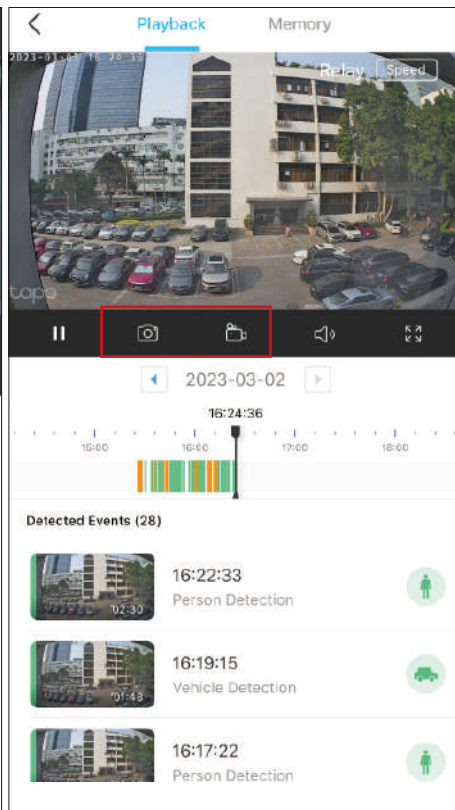

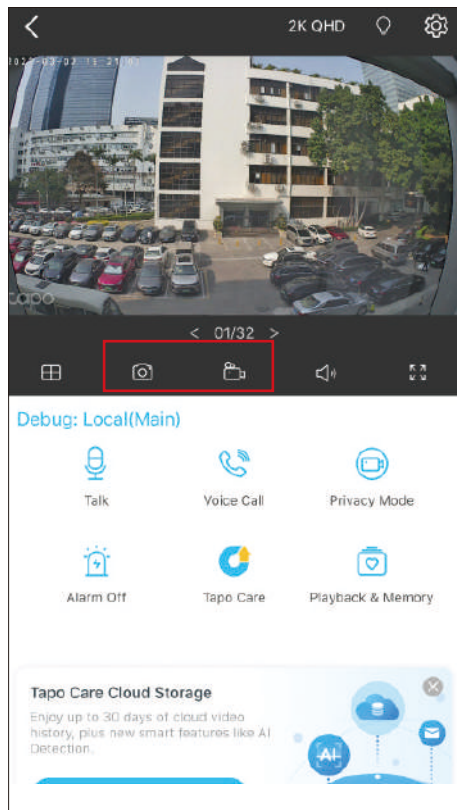

Note: The microSD card is needed for recordings. Initialize the SD card on the app before using it.

Manual Recording

When watching live or playback, you can take screenshots and record video clips anytime you want. Photos and videos you take will appear in the [Memory](#) page, and you can download them to your phone or share with your family.

1. On the [Live View](#) or [Playback](#) page, tap  to take photos and tap  to record video clips.
2. Go to [LIVE View](#) page, tap  and enter [Memory](#) page, or go to [Me](#) > [Camera Memory](#) to view, download, and share photos and videos you take.

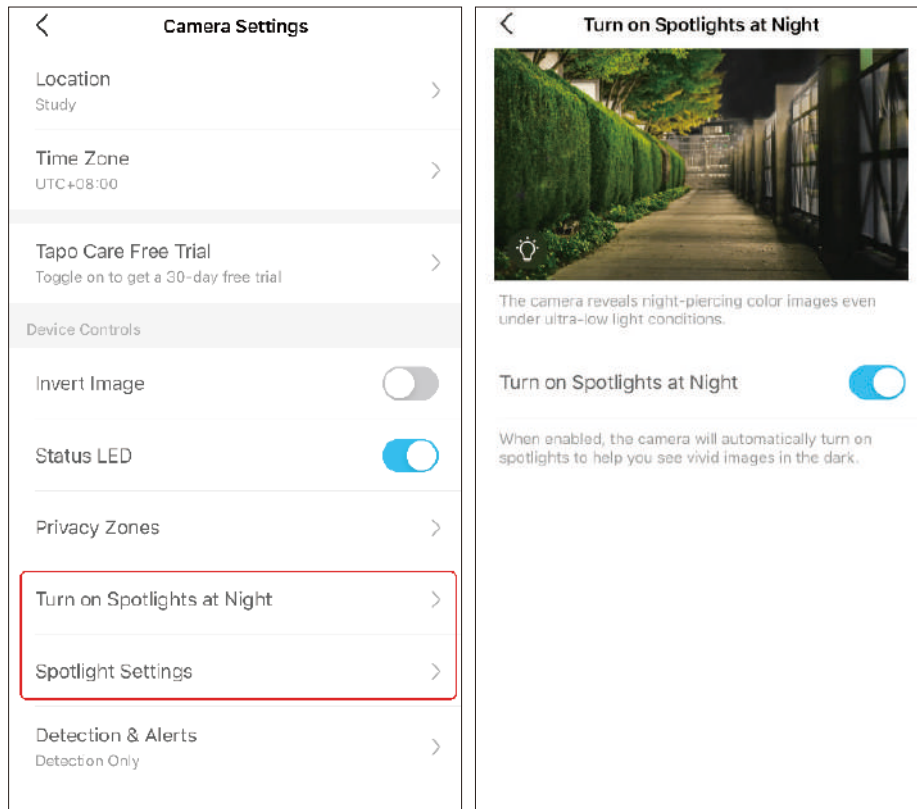

Spotlight Settings

Tapo C325WB offers more significant night vision performance than traditional color night vision cameras, capturing vivid colors under ultra low-light conditions. You can turn on Spotlight at Night and adjust the white light brightness as needed.

■ Note: HDR is not recommended for an environment with minor contrast, or it may affect picture quality.

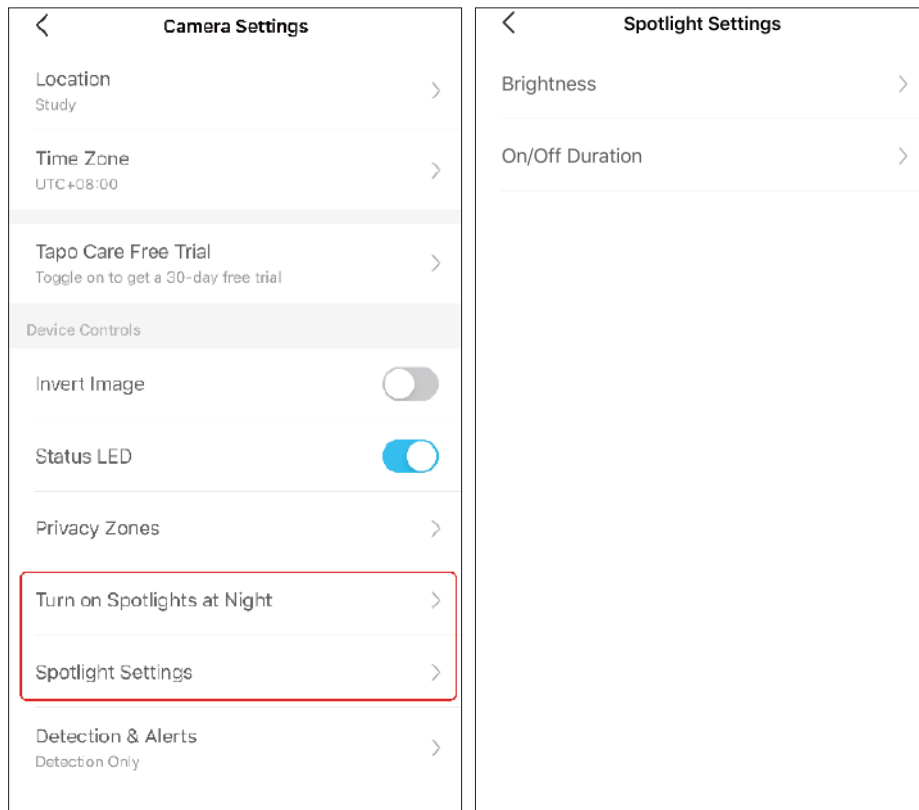

1. Turn on Spotlights at Night

Go to [Camera Settings](#) > [Turn on Spotlight at Night](#), and turn it on.

2. Adjust Spotlight Brightness and On/Off Duration

Go to [Camera Settings](#) > [Spotlight Settings](#) to adjust the brightness on On/Off duration. You set a desired On/Off duration for temporarily turning on/off the spotlight. For brightness settings, the higher the value, the brighter the spotlight.

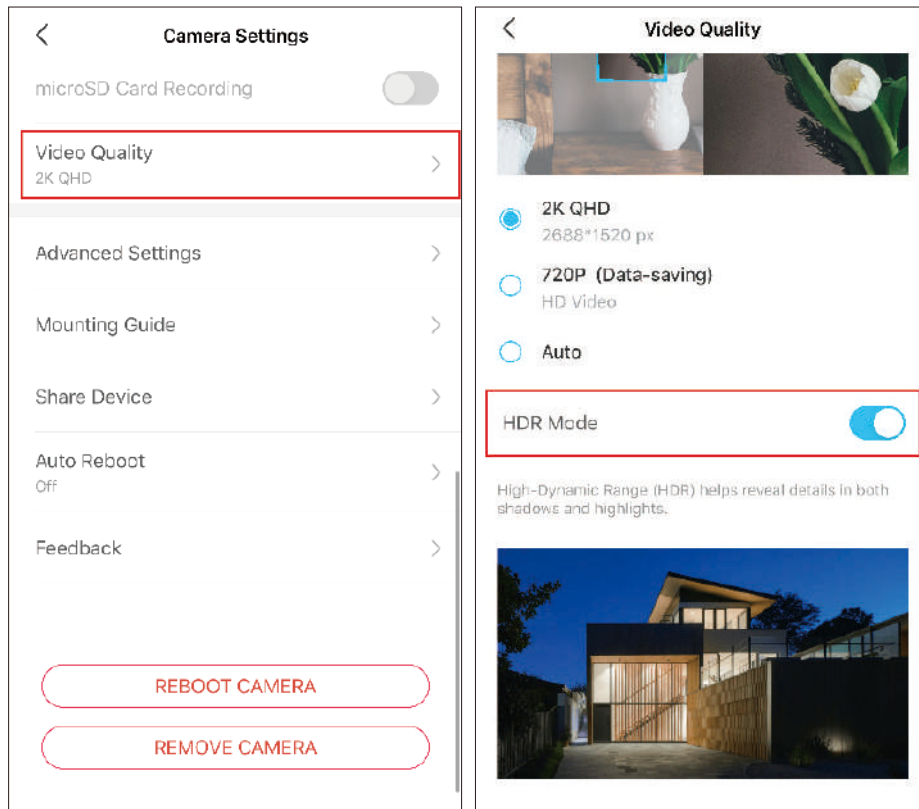

HDR Mode

Thanks to its High-Dynamic Range technology, Tapo C325WB delivers sharper images when overexposed or underexposed. You can enable it to reveal more vivid details in both shadows and highlights.

■Note: HDR is not recommended for an environment with minor contrast, or it may affect picture quality.

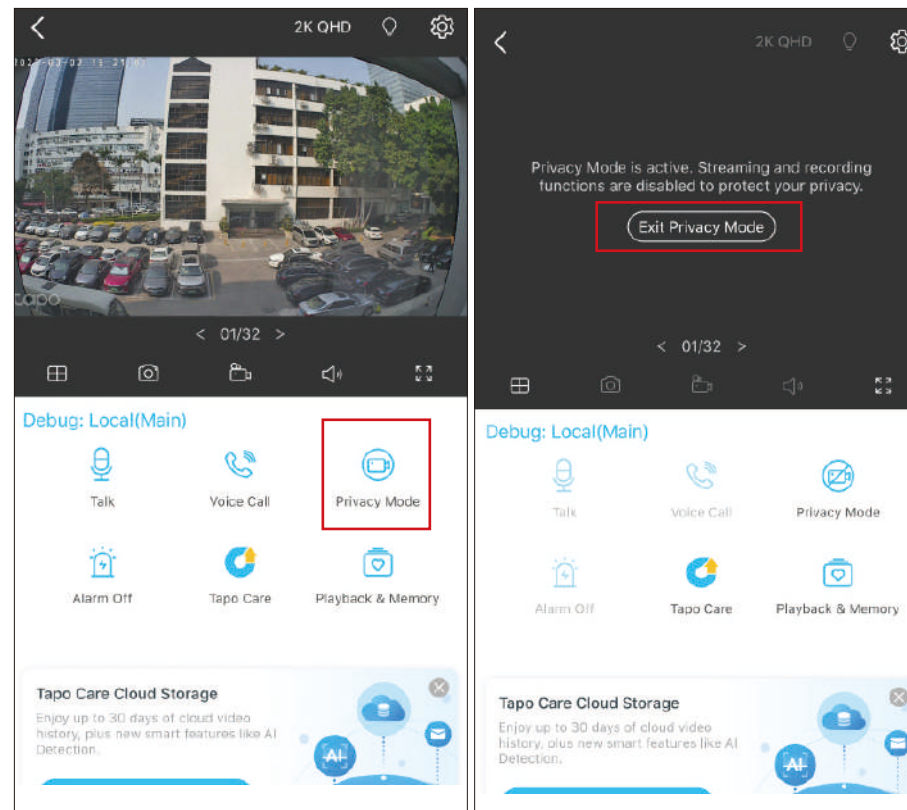

Turn on HDR Mode

Go to [Camera Settings](#) > [Video Quality](#), and turn it on as needed.

Privacy Mode

On the [Live View](#) page, tap  to enable the Privacy Mode. When enabled, streaming and recording functions will be temporarily disabled to protect your privacy. You can tap [Disable Privacy Mode](#) to exit Privacy Mode and the camera will be back to work.

How to Reset Your Camera

Follow the steps below to reset your camera via the Reset button, or follow the installation video at <https://www.tp-link.com/support/setup-video/>. You can also go to [Camera Settings](#) in the Tapo app and tap [Remove Device](#) at the bottom to factory reset your camera.

1. Loosen the screws on the back panel and remove the cover.

2. Press and hold the Reset button for 5 seconds until the LED blinks red to reset Wi-Fi information only; Press and hold the Reset button for at least 10 seconds until the LED blinks red quickly to reset your camera to factory default settings.

FCC compliance information statement

Product Name: Outdoor Security Wi-Fi Camera

Model Number: Tapo C325WB / TC68

Component Name	Model
I.T.E Power Supply	T090060-2B1

Responsible Party:

TP-Link USA Corporation

Address: 10 Mauchly, Irvine, CA 92618

Website: <http://www.tp-link.com/us/>

Tel: +1 626 333 0234

Fax: +1 909 527 6804

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.

"To comply with FCC RF exposure compliance requirements, this grant is applicable to only Mobile Configurations. The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter."

We, **TP-Link USA Corporation**, has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

OPERATING FREQUENCY (the maximum transmitted power)

2412MHz—2472MHz (20dBm)

EU Declaration of Conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/53/EU, 2009/125/EC, 2011/65/EU and (EU)2015/863.

The original EU declaration of conformity may be found at <https://www.tapo.com/en/support/ce/>

RF Exposure Information

This device meets the EU requirements (2014/53/EU Article 3.1a) on the limitation of exposure of the general public to electromagnetic fields by way of health protection.

The device complies with RF specifications when the device used at 20 cm from your body.

UK declaration of conformity

TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of the Radio Equipment Regulations 2017.

The original UK declaration of conformity may be found at <https://www.tapo.com/support/ukca/>

Canadian Compliance Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.

2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. l'appareil ne doit pas produire de brouillage;
2. l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Industry Canada Statement

CAN ICES-3 (B)/NMB-3(B)

Korea Warning Statements:

당해 무선설비는 운용중 전파혼신 가능성이 있음.

NCC Notice

注意!

取得審驗證明之低功率射頻器材，非經核准，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

低功率射頻器材之使用不得影響飛航安全及干擾合法通信；經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

前述合法通信，指依電信管理法規定作業之無線電通信。

低功率射頻器材須忍受合法通信或工業、科學及醫療用電波輻射性電機設備之干擾。

Safety Information

- Keep the device away from fire or hot environments. DO NOT immerse in water or any other liquid.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Do not use damaged charger or USB cable to charge the device.
- Do not use any other chargers than those recommended
- Do not use the device where wireless devices are not allowed.
- Adapter shall be easily accessible.
- Use only power supplies which are provided by manufacturer and in the original packing of this product. If you have any questions, please don't hesitate to contact us.
- Adapter should be used indoors where the ambient temperature is lower than or equal to 40°C

This product uses radios and other components that emit electromagnetic fields. Electromagnetic fields and magnets may interfere with pacemakers and other implanted medical devices. Always keep the product and its power adapter more than 15 cm (6 inches) away from any pacemakers or other implanted medical devices. If you suspect your product is interfering with your pacemaker or any other implanted medical device, turn off your product and consult your physician for information specific to your medical device.

Please read and follow the above safety information when operating the device. We cannot guarantee that no accidents or damage will occur due to improper use of the device. Please use this product with care and operate at your own risk.
